

for dental excellence

developing a blueprint

nakanishi dental laboratory

your model for success since 1953

As a dentist, you expect professional craftsmanship and prompt delivery. In fact, your reputation depends on it. Founded in 1953, Nakanishi Dental Laboratory has been a recognized leader in providing consistent, high-quality restorations for more than half a century. During that time, we have grown considerably, but our commitment to excellence hasn't changed. We continue to provide our clients with the individual attention they deserve case after case, year after year.

Whether you are looking for an all-ceramic crown, implants, a nightguard, or a sleep apnea appliance, our staff is qualified to accommodate you in an expert, timely manner.

For more information about our many products and services, please contact us. One of our technicians will be more than happy to assist you.
